Extract from the ICMEESA bursary rules

Bursaries Supported by ICMEESA

The prime membership criteria of this Institution are the possession of a Government Certificate of Competency, mechanical or electrical, factories or mines.

Bursaries will therefore be restricted to studies in Mechanical or Electrical Engineering (Heavy Current) required by a student to eventually obtain the above qualification.

The bursary will include studies at Technical College, Technicon or University. ECSA, or the education authorities, must formally have accredited the educational institution.

ICMEESA Guidelines for Bursary allocation

Any financial assistance from the Institution, whether at branch or council level, to any person must be shown and accounted for in the financial statements of the Institution.

Bursaries may be granted annually to students who have been recommended to, and approved by Council.

A bursary may be granted to the same person consecutively, provided that the student shows progress with his studies by passing all the required examinations.

Bursary beneficiaries are to be selected and reviewed annually by the ICMEESA education and training sub-committee. The ICMEESA executive committee with the final approval of the ICMEESA council must approve the selected bursars.

The ICMEESA Branch where the selected is normally domiciled will be informed so as to be able to mentor and assist the student where possible.

Bursary grants will be paid by the treasurer directly to the educational institution at which the bursar is studying. The bursary will cover the payment of tuition fees and textbooks, in part or whole, as decided by Council. Payment to intermediaries or directly to bursars will not be entertained.

Bursar selection preference will be considered as follows:

1. Previous ICMEESA bursary holders, provided subjects have been passed.
2. Children who are direct descendants of members of ICMEESA, with preference to those with membership the longest standing.
3. South African citizenship.
